welcome to the front

The OCU: Oceana Coalition and the USN: - The United States of Yukontinent, two major powers

Huffman Island is the only land border.

Become a recruit sent to the front line and drive a Van Tour and carve your name into history.

Encounters with comrades and the trust that arises while fighting together, customizing your beloved aircraft, and the ever-changing frontline.

Front Mission Online (FMO) was created with that concept in mind.

And over a year after the start of operation, the songs that flow in each scene,

I think it's connected with your experience as a soldier.

Well, the long-awaited FMO soundtrack,

As you know, Mr. Iwasaki is planning the second season of the series that started with the 4th.

This is the composer who is taking care of me.

In this work, along with the online simulation of the conventional simulation RPG

I asked him to understand that it was an ambitious game that had been renewed from the game design,

In terms of music as well, the rhythm is emphasized, unlike the bass series works.

Yet the weight and tension that flow through the whole,

I was conscious of the Front Mission-likeness and gathered it into one, and it feels like Mr. Iwasaki.

Also, since FMO is initially set on Huffman Island, the same as the 1st,

We were discussing that we wanted to use a few songs from the 1st, but Mr. Iwasaki suggested that we use some of the songs from the series.

We will select songs, and for fans of the series

I think that you can enjoy the difference between the original song and FMOVer.

So, please enjoy the FMO soundtrack, Warano no Kioku.

Front Mission Series Producer Toshiro Tsuchida

## What is Front Mission Online?

y/In the near future, regional blocks based on the economy have progressed.

### Takumi OCU, and ySu.SN

The Second Huffman Conflict began with a conflict of interests between two major nations. •

Breyers belong to either army and fight for supremacy of Huffman Island.

"Front Mission Online" is an online action game.

— Raise the 'Z level and purchase various parts to customize your van tour according to your job.

Enter the battlefield and arena to battle enemy NPCs and flayers!

— ' / In the area called the fierce battlefield, a simulation-like camp is being held.

— ' z There are also dramatic events like MMORPGs.

This is the battle depicted in the 1st Yufu Nitto Mission.

Both PlayStation 2 version and Windows version are good!

It's been a long time, Front Mission series fans.

This is Iwasaki.

The music for Front Mission Online (FMO) was produced in 2004.

I am very grateful to be able to release the soundtrack after more than two years.

FM0's music basically consists of arranging songs from 1st to 4th.

In order not to disappoint the expectations of past series fans,

I tried to keep the original image as much as possible while adding variation with rhythm etc.

Mr. Sekito and Mr. Yamazaki, who participated as strong helpers, provided a very burning song while drawing a line with my song.

Arranging the music for last week's series is a front mission for me.

It was a great help in understanding the world view of the game in perspective.

It had a considerable influence on the development style of FM5 that followed .

With the help of various people, including Mr. Tsuchida,

For the past few years, I feel that I have been brought up by the flow of the Front Mission Project.

Unfortunately, it was not possible to record all songs due to recording time, but when selecting songs, Mr. Kuroda, the planner,

I received valuable advice from my friends in the company who live in the Huffman Island OCU Army every day.

I intend to select songs from a perspective that is as close to the users as possible.

Currently joining a new project and starting music production.

The world view is completely different from Front Mission, and it is a new challenge for me.

I pray that we can meet again somewhere in the near future.

2006.8.2Composer Hidenori Iwatsuki

Final Fantasy Mission Online Original Soundtrack

SQUARE CNIX

This CD is designed for a certain amount of time, but this fMIM is also intended to invade other areas of the world without respecting the point of view. To do this, and to use the network to make it into this CD through the CD distribution, I am afraid of the manner in which it is done. 2005
